Substation Services

CE Power Solutions provides a full scope of Substation Services ranging from design and construction to commissioning, testing and emergency maintenance response, with NETA certified technicians and engineers. Engineering studies are also available to help enhance system performance. CE Power offers full service, turn-key engineering and construction services to deliver high voltage, electrical requirements...on-time and under budget.

**New Facilities Construction
Plant Expansion**

**Upgrades
Catastrophe Rebuilding**

Substation Construction, Commissioning & Startup

- 15kV thru 500kV switchyards
- Indoor and outdoor

Transformers

- Commissioning and factory inspection
- Field service on dry and oil-filled units up to 800MVA
- Online and off-line oil processing/dehydration/de-gasification/oil analysis
- Doble Engineering Client
 - M-4000 power factor testing and DTA services

Circuit Breakers, Circuit Switchers & Switches

- Commissioning
- Testing and repair of 480V thru 500kV
- Velocity and timing, Power Factor
- Air--blast, vacuum, oil and SF6
- PowerDB client

System Protection Services

- Network, Distribution, Transmission & Generation
- Electro-mechanical, digital and micro-processor relays
- Relay testing, SCADA RTU commissioning & testing

CE Power Offers:

- Licensed Professional Engineers
- NETA technicians
- Former utility personnel
- Average high voltage experience level of 25+ years
- Documented process and procedure
- Daily status reports
- Fully trained technicians and engineers
- Exemplary safety record in industry

Always Safe. Always Honest.
